

WELLAND HYDRO-ELECTRIC SYSTEM CORP.

Requires an Engineering Technician

Welland Hydro-Electric System Corp. (WHESC) is a progressive electric distribution utility delivering electricity in a safe & reliable manner while maintaining a high quality of service to meet the needs of our 24,500 customers within the City of Welland.

Primary Duties:

- Prepare distribution system designs, material lists, cost estimates, and drawing packages for overhead, underground, and substation installations
- Prepare designs for the installation of new or upgraded residential or commercial service connections
- Coordinate design and construction activities with external stakeholders including customers, municipalities, other utilities, developers, contractors, etc.
- Liaise with field staff as required to support design and construction activities
- Maintain record drawings, maps, and supporting documentation in WHESC's GIS and related document management systems
- Support supervisory staff in achieving the objectives of WHESC's Distribution System Plan
- Assist with the preparation of RFQ / RFP packages related to distribution system construction and maintenance activities
- Perform field activities in support of design, asset management, and record verification
- Maintain confidentiality and privacy of information as per PIPEDA, the Privacy Act and MFIPPA

Qualifications:

- Diploma in an Electrical Engineering Technician program from a recognized Community College with the Electrical Power option
- O.A.C.E.T.T. designation
- Minimum five years of experience in a Local Distribution Company engineering environment
- Class "G" driver's license in good standing

Knowledge and Skills:

- Proficiency with GIS, CAD systems and Microsoft Office applications
- Knowledge of USF standards
- Demonstrated ability to exercise sound engineering judgment
- Ability to communicate effectively in a professional and tactful manner
- Proven interpersonal and consultative skills
- Must be able to independently carry out assignments of substantial technical complexity
- Demonstrated project coordination experience
- Must demonstrate a working knowledge of Ontario Regulation 22/04, the Ontario Electrical Safety Code, and the Occupational Health and Safety Act

Applicants are invited to submit a detailed resume outlining qualifications, in confidence by 12:00 noon May 17, 2021 to:

careers@wellandhydro.com
